WASHINGTON, Jan. L.—Senator

Lodge then discussed at length the action of the President in connection with
the Panama revoit. He said that the
act of Congress had been an instruction
to secure a canal at a certain point. No
objection had been made to the HayHerran treaty, except that too great
concessions had been made to Colombia, and notwithstanding these concessions, the treaty had been summarily rejected by the Colombian Congr. a.
The Colombians had from the start
sought to secure more money for the
canal right, Mr. Lodge asserted, and
he quoted Minister Beaupre's corre-

Not only had there been an effort to secure more from the United States, but there was also an attempt to equeeze the Panama Canal Company. This was the attitude of the Colombian government, he said, and he called attention to the fact that the government had taken that position after asking the United States to enter into the negotiations for the treaty.

as any, all the world had known that revolution was impending if the treaty was not referred. Those reports, of course, had come to the ears of the President, and the Senator asserted that if the President had not taken prelombia, or any of the representatives of either, to execute by armed force, either the guarantee of the neutrality of the isthmus or of the sovereignty of New Granada and Colombia over the same, and if the United States has been so asked, then the dates and circumstances thereof; and to send to the Senate copies of the letters or notes in each case conveying the application, and what was done thereunder by the United States.

AMERICAN QUESTION.

Mr. Lodge declared the question involved to be an American question, and one in which the whole American people are deeply interested. The canal, he said, gives us an interest in the isthmus which cannot be overestimated. It gives us practically a continuous goast from Colombia to Maine, and he did not believe Colombia should stand across the pathway of the progress of the world. For the life of him, he could not see the wisdom of the course of some of the Democrats in this instance. As a Republican, he would like no better issue in the pending Presidential campaign than the Panama Canal, but as an American, he would regret a division on this important question. When the canal is completed, the voice of the American people will acclaim the attaint and Pacific oceans, even as they acclaim the action of Jefferson when he bought the territory of Louisians.

Mr. Lodge then spoke of the McClelian banquet in New York last night, saying:

"Among others present was a very

DELAY INCREASES COST. ISY DIRECT WIRE TO THE TYMEK!

WASHINGTON, Jan. 5.—[Exclusive Dispatch.] The action of the Democratic Senators in delaying ratification of the Panama Canal treaty comes at a most unfortunate time. 'The dry season has just set in on the isthmus and every week of delay in beginning the work on the canal will cost this government considerable money. An official of the government who recently returned from a trip to the isthmus and every week of delay in beginning the work on the canal will cost this government would save a large sum of money if the treaty were to be ratified at once, so that active operations on the canal could begin immediately. Delay at any other period of the year would make little in no difference, but at this particular line it is exceedingly unfortunate. The rainy season on the isthmus ends about January 1, and then, for about it months, you may depend on good weather. The rainy season lasts from May until January.

"The first thing the Canal Commission will have to do upon being authorised to superintend the completion of the waterway, is to visit the isthmus and go over the route in person. Several reports have already been made on the status of the canal but the members of the commission will want personal knowledge of the actual cânditions, and they can only obtain this by being on the ground. It would be an exceedingly difficult task for them to attempt such a survey in rainy weather. Of course it could be done, but the hardships of an undertaking of this sort would be well-nigh insurmountable. If it could be done during dry weather, the task would be simple enough. Our engineers will make excellent headway if they are enabled to start initial work in the dry season."

and his administration, and we have a prived of the opportunity of discussing it.

"We can say what we want about the silver issue, but it was a better issue for the Democratic party to meet the country on than the one gone before; and when I saw the accounts of this delightful banquet in New York and read those inspiring speeches and observed the Democratic party once more through its chosen leaders, there preparing to stand across the pathway of American progress and proposing to put at their head the man who held power last in their name, I confess my spirits rose higher than ever about the Republican prospects. I thought of what a pleasure it would be to contrast the policy which tried to set up Lilluokalani in Hawaii with the policy of the Republican party which has made those islands a part of the United States; to contrast the tariff which they passed and which their own President called the tariff of perfidy and dishonor, with the tariff was passed; to examine the history of the loans which they made in a time of profound peace to the bankers of New York, with an interest rate far above what the United States could borrow at even then, and contrast them with the loans which we made in time of war; and then compare that era of panic and depression with the prosperity which followed."

Mr. Lodge then began his speech on Panama. He quoted a number of authorities in support of his position that the President had not departed from the beaten paths in recognizing the independence of Panama, and he laid down the general proposition that "a revoited State may be recognized as sovereign or independent by a neutral power without departing from its attitude of neutrality." He also contended that such an ast could not be construed as provoking war.

Mr. Lodge contended that it is established that a new State should be recognized, whenever a new State is sufficiently established to assume international obligations, and whenever recognition forms the dictates of prudence and good policy. He also laid down as a general rule, observed by the United States, the fact that a defacto government is the de jure government. He contended that the recognition of any State is a question to be determined entirely by the recognizing power—by its inclination and judgment, independent of all other considerations.

The Republicans voting in the negative were Mesers Cooper of Wisconsin. Prince of Illimotion, and Wanger of Pennsylvagis, the majority otherwise supporting the motion, but the minority opposed it.

The President's message concerning Panama and the canal was then laid hefore the House and read.

The reading of the message was followed by applause on the Republican side.

At the request of Mr. Gillette of Massachusetts a memorial to Congress from the Massachusetts Historical Society, praying for the restoration of the frigate Constitution was read and referred to the Committee on Naval Affairs.

Mr. Williams of Mississippl, the minority leader, said he was glad that a precedent had been established permitting the reading in the open House of memorials from a sovereign State, calling attention to the fact that he attempted, when Mr. Reed was Speaker, to secure the rending of a memorial from his State without success.

Mr. Payne called Mr. Williams's attention to the fact that the menorial was from a society and not from a State, whereupon the latter regiled that he hoped the same privilege would be accorded a State as had been given a society.

OF ARNINGS.

STATEMENT OF EARNINGS.

[BY THE ASSOCIATED PRESS.-P.M.]

NEW YORK, Jan. 5.—The statement of earnings for 1902 shows a great shrinkage in the business of the corporation. Net earnings (December esti-

mated.) aggregate \$106,979,012, as against \$133,308,763 in 1902, and \$105,-947,160°in the first nine months of the corporation's history in 1901. Briefly, business for the twelve months of 1902 was only about 43,000,000 in excess of that for the first nine months of the corporation's existence.

For the last quarter of 1903, net earnings (December estimated at \$3,100,000,) were \$14,845,042, as against \$31,485,759, for the same quarter of 1901. Thus earnings for the last quarter were decidedly less than half of those of 1902. It is probable that when complete receipts are in for December, 1903, the last quarter may show slightly more than 50 per cent. of earnings for the same period of 1901.

The net balance after appropriating for sinking fund bonds of subsidiary companies, depreciation, improvements and construction and inverses on the regular bonds, and after sinking funds have been deducted in \$60,824,130, as against \$90,364,324 in 1902. The undivided, surplus of profits for 1903, aggregates \$11,962,646, which is less by \$22,291,012 than in the previous year. This is partily accounted for, however, by the charging off for depreciation in inventory valuations and for adjustments of sundry accounts of \$5,750,000 as against nothing in 1902.

On December 31 last the company's unfilled orders aggregated 3,246,122 tons, as against 3,347,753 tons on the same day in 1902.

would be impossible to leave to the caprice of a third power. Russia's recent course demonstrates the unsatisfactory nature of present conditions. The reoccupation of Mukden and the continued occupation of Ta Tong Kow, have undoubtedly had the effect of intimidating China, and of preventing her from fulfilling her trenty obligations with the United States and Japan with respect to the opening of those places to the commerce of the world. So, as regards Korea, it is now known that the joint efforts of Great Bertain, the United States and Japan to open the Yalu to foreign commerce at large were on the eve of success when the Russian occupation of Yongampho blocked the plans for the time being.

"These and similar events in Korea and manchuria justify the apprehension that if affairs are permitted to proceed uninterruptedly in their present course, a large part of the shores of the Yellow Sea, not to mention the interior of Manchuria, will be closed to the commerce of the civilized world. It is of vital importance to Japan that this should not happen, and it is plain that the final issue depends solely upon Russia's willingness to recognize this fact."

Russia, he adds, is still opposing the opening, and a few Russian troops have occupied Yongampho, but he believes the negotiations will terminate in a decision favorable to the views of Korea and the powers desiring the opening of the ports.

RULE AFFECTING THEATERS.

[ST THE AMSOCIATED PRIESS—P.M.]

CHICAGO, Jan. 5.—With the exception of six or possibly seven theaters all the playhouses in Chicago must be immediately scaled to a limit of 1900 in seating capacity under the present building ordinance, and as it is likely to be amended, according to Alderman Mawe, leader of the Council. The number of playhouses affected is thirty. Theaters on the second or a higher floor must come down to the ground, and the theater on the roof of the Masonic Temple is no longer to be thought of. The effect will be to cut the aggregate seating capacity of Chicago theaters by 18,000 seats or more.

SPECIAL GRAND JURY.

[ET THE ASSOCIATED PRESS—AM.]
CHICAGO, Jan. 5.—A special grand jury may be called to investigate the responsibility for the Iroqueis Theater horror. The proposition has been discussed at a conference between State's Attorney Dineen and Corvover Tracey, and the decision was that Assistant State's Attorney Barnes should be detailed to canvass the situation today when the Coroner takes up his plans for the inquest. The Coroner will inspect the ruins of the theater during the day, after which the public prosecutor will be given an outline of the evidence to be deduced at the inquest. On the report of the Assistant State's Attorney will hamp the decision as to the summoning of a special grand jury. The regular grand jury will be convened January 18, as the docket already is heavy.

HIS FAMILY BURIED.

[BY THE ASSOCIATED PRESS—AM.]

CHICAGO, Jan. 5.—A funeral of three members of a family, who, with two others, composed a party at the iroquois Theater on Wednesday last, all five of whom perished, took place today. Mrs. C. O. Folts, wife of a Chicago mining inventor; her two daughters, Alice, aged 18, and Helen. 14; and two children friends of the family, made up the party.

The husband and father was in Arisona at the time of the fire. To reach him, it was necessary to cover the last part of the trip by stage and horseback to a point eighty miles from Old Glory, Ariz. He arrived in Chicago for the funeral today. Of the family of four, which he had left upon his departure from the city a short time ago, only one, his daughter. Catherine, il by years of age, who had been left at home on the afternoon of the fire, is living.

Washington.

The first business transacted was the arraignment of Postmaster Jacob Fisher of Hastings, who was indicted on charges similar to those against Senator Dietrich and in the same connection—that of alleged bribery in securing his appointment as postmaster at Hastings. Fisher pleaded not guilty and waived preliminary examination, his trial being set to follow that of Senator Dietrich, in which he is charged with profiting by the lease of Senator Dietrich, in which he is charged with profiting by the lease of a building to the United States government to be used as a postoffice at Hastings while Dietrich was a member of Congress. District Attorney Summers read a telegram from Attorney-General Knox, stating that an important witness had left Washington and would be in Omaha Thursday. The District Attorney said that counsel for Senator Dietrich would not agree to proceed on certain conditions without the presence of the witness, and he therefore requested a continuance. Gen. Cowin, counsel for the defense, stated that Senator Dietrich was ready for trial, and was entitled to as little delay as possible.

The court, however, sustained the District Attorney and continued the case until January 7. In announcing the continuance, Judge Vandeventersaid it was the opinion of the court that the government should have sufficient time to carefully prepare its case, and that Senator Dietrich should have an opportunity to vindicate himself in the face of any and all evidence that the government wished to present.

FACTORY GIRLS IN PANIC. FACTORY GIRLS IN PANIC.
PHILADELPHIA, Jan. 5.—A panic was only averted by the remarkable activity of the fire department at the textile mills of William T. Smith & Sons today, when flames were discovered in the lower part of the building, practically cutting off all means of exit save by the fire escapes. The arrival of the fire department partially allayed the fears of the horde of girls, but all were taken safely from perilious positions. The loss was \$25,000, to the building and machinery.

INGLESIDE RACES.

San Francisco, Jan. 5.—The defeat of Kenilworth was the surprise of the racing at Oakland today. He was an even-money favorite for the six-furiong handicap, but the impost of 126 pounds on the heavy track was evidently too much for him, as he stopped badly. Arcade, getting through next to the rail, won by a neck from the poorly-ridden Martinmas. The Bon, an outsider, was third. Namtor was plunged on to win the last race at a mile and a sixteenth, but Stuyve, the second choice, led all the way. Joe Lesser beat Namtor for second money. PILES

Oured Quickly and Without Pain

Cured Quickly and Without Pain.

There are pile remedies without number, but there is only one cure, and that is the Pyramid Pile Cure, which is in the form of a suppository and is applied directly to the seat of the trouble.

Any physician will tell you that for the proper treatment of Piles nothing can compare with a suppository, whereas the greater number of preparations that are offered to you for the treatment of this disease, are lottons, salves and oluments. Why? Because they are not so expensive as a suppository, which is bound to contain more costly ingredients, and which requires special machinery to make it; moreover, a suppository inserted up the rectum, comes in direct contact with the cause of the complant, and no other form of treatment does so.

Wallace Cookman, Hallerton, P. Q., Canada, writes: 'I have had two surgical operations for piles and they were not a success; after using three boxes of FyramM File Cure I feel as though I never had piles, and they have afflicted me for twenty-five years."

his annual message, sent to the Council on Monday, is a recommendation that the city shall employ a purchasing agent, to whom shall be committed the duty of purchasing all supplies required by the city in the several departments of the municipal government. The Mayor recommends that the position of city purchasing agent be created as a permanent department of the city government, and that the position be filled by a civil service appointee. He gives some very good reasons for the action recommended. The blundering Democracy in the Senate is trying its level best to make the usual blunder by opposing the ratification of the treaty with Panama respecting an isthmian canal, but for once the Democracy doesn't appear to be unanimous. Such being the case the Democratic jackass will be saved from falling all over himself in his usual characteristic manner.

that under the present system it is but natural that deputies or heads of departments, in making purchases, should patronise their personal or po-litical friends. "Too often," as the Mayor says, "little attention is given to the price of articles secured and to their quality." It does not neces-sarily follow that, because of this practice, there is "grafting" or other irregularity, though these things are possible under the existing system. The employment of an authorised purchasing agent by the city would reduce to a minimum the denomination. ace to a minimum the danger of gularities in the purchase of city piles. Of course it would not do away altogether with this danger, for the purchasing agent himself might possibly "fall down" in the perform-space of his duty. It would be all-ersential that the man selected for this responsible position should be a man of known and tried integrity, as well

Is that of economy in the purchase of supplies used by the city. As the Mayor well says, "A city purchasing agent would devote his entire time to buying goods needed by the various city departments, familiarising himself with market conditions and keeping records at all times accessible to citizens and public officials.

This change in our method of purchasts winning would be continued to the continues with the continu caseing supplies," continues the Mayor, "would mean a great saving to the city, and would prevent careless or reckless purchases. The pres-ent method of requisitioning for sup-plies would be followed, requisitions being made by heads of departments and approved by the Council and Mayor. At this stage the purchasing agent would be called in, and would give his personal attention to the buying and delivery of the goods provided for in the requisitions." The purchasing agent, as a matter of course, would be under bonds to an amount necessary to insure the faithnt necessary to insure the faith-

protect the city against possible loss. It is altogether probable that if the Mayor's suggestion in this matter be carried out, it will be found that the elty will save the salary of the purchasing agent several times over in the course of a year, besides getting better and more uniform supplies. At any rate, the plan might be tried. It would be easy to go back to the old system of purchasing, if the plan sug-scated by the Mayor should prove a failure—of which there is little prob-

I do not believe there is a city of the size of Los Angeles in the United States where such conditions exist for the making of extra work for the police. This is naturally a favorite spot for hobos to come to spend the winter, and tough characters pour in here from all parts of the Union. Considering the great number of these characters, it is really remarkable that the police are able to give as efficient service as they do. This constant attempt to discredit the police department should find no sympathy among people who believe in law and order. I believe Chief Elton is conscientiously trying to do his duty. He and his men should be upheld by all good citizens."

or executive officers or servants of the recreant corporations.

The court holds that while such officers or employes may be held responsible for "sins of commission" on behalf of the corporations, they are not accountable for "sins of omission." In other words, the duty of a manager or executive officer of a corporation is to execute the wishes or instructions of the board of directors, and for fulfillment of such instructions he can be held personally responsible, but he cannot be held accountable for things left undone for lack of instructions from his principals to do them.

from his principals to do them.

THE REAL THING.

The real culprits punishable for a corporation's sins of emission, in the light of Justice Chambers's decision, are the persons who control the policies of the company, and not the person, or persons, charged with carrying them into effect.

In order to mete justice to whom justice is due, or to chastise where chastisement is merited, in the street sprinkling cases, it will be necessary to proceed against the persons who direct the corporations in question, and not the persons who carry out the policies of the directors, is the gist of the decision made yesterday, which was in the case of the People vs. S. B. McLengan, general manager of the Los Angeles Traction Rallway. No written opinion was filed in the case, and the court's remarks were brief and to the point, substantially as outlined above. Four other cases of similar import—a second one against Wanager McLenegan of the Traction, one against Superintendent Akin of the Los Angeles Railway Company, one against Howard E. Huntington, assistant manager of the Pacific Electric, and one against E. P. Clark, president and general manager of the Los Angeles nat Pacific—were to be taken up at the same time, but were continued at the request of Deputy City Attorney Beebe, who desired time for the City's legal representatives to confer with the attorney; of the railway companies as to further procedure in the matter. Assistant City Attorney Gouge was also present on behalf of the city's law department; Col. John D. Pope, counsel for the Tarction Company, and Albert M. Crutcher of counsel for the Huntington companies, were present, to look after the Interests of the corporations.

The city's representatives wanted to enter into a stipulation with the corporation lawyers as to the responsible ingten companies, were present, to look after the interests of the corporations. The city's representatives wanted to enter into a stipulation with the corporation lawyers as to the responsible parties against whom the complaints for non-compliance with the sprinkling ordinance should be directed. Attorney Pope, for the Traction Company, expressed his willingness to stipulate as to the personnel of the defendants in one action which should be made a test case, and, being a director of the Traction Company, he even volunteered to submit to arrest himself in order to have the validity of the ordinance tested.

manner for a speedy settlement of the controversy.

Attorney Crutcher, in the absence of his colleague, W. J. Trask, who was busy trying a case in the Superior Court, did not feel at liberty to enter into any stipulation for his cilents, and the remaining cases were, therefore, passed, in order to admit of a conferonce of all of the lawyers concerned. This will probably be held today or tomorrow, and if an agreement is arrived at, the hearing of the test case will probably be commenced before Justice Chambers next Saturday morning.

TO ARREST DIRECTORS.

The present plan of the City Attorney's office appears to be to have warrants issued for the arrest of a majority of the board of directors of one of the contumacious street railway companies, to be proceeded against for non-compliance with the sprinkling ordinance: instead of trying to hold the manager or some other employe responsible. Complaints may be filed against all of the directors of the several railway companies, but it is probable that the defendants in only one case will be tried immediately, and the case be carried up to the Superior, and perhaps the Supreme Court for final decision.

Messrs, Goudge and Beebe of the City Attorney's staff, both maintained, after Justice Chambers's ruling in the McLenegan case, that the city had lost no ground by the court's decision. On the other hand, they claimed, that the decision would result in advantage to the city, as it was a step in the direction of fixing the responsibility. TO ARREST DIRECTORS.

The Free Kindergarten Association

was organized in this city about twenty-five years ago, through the efforts of Mrs. C. M. Severance, when kindergartens were something new. It had its inspiration in the needs of little poor children, too young to go to school, but whose parents were compelled to go out to work.

A room was rented on Ninth street, and since 1878 little children have been taught without charge until old enough to enter the public schools.

As an outgrowth of this institution the kindergarten was engrafted upon some of the public schools of the city, but there is nevertheless an ever-increasing demand upon the facilities of the association. It is now their desire to own a building, devoted to their work, and the purpose of Mrs. Haskell's readings is to create the nucleus of a fund for that purpose.

DR. DASHIELL HEAD COACH.
[BY THE ASSOCIATED PRESS—A.M.]

Striking Evidence of His Superior Skill.

This is a likeness of MR. A. HETZLER, and the following is his statement.

I have been blind for several years, and have had various treatments from many physicians, but to no avail, and became discouraged. My son read of Dr. Rama and his wonderful cures and induced me to consult him. The doctor did a slight operation and restored my sight, and all I have to say is that I sm the most grateful and happlest man in the State of California, and the Rama Institute has my lifelong gratitude.

A. HETZLER, Los Alamitos, Cal.

Dr. Rama arrived in Los Angeles some two months ago. The newspapers announced that he could make the blind see, the deaf hear, the lame walk and in a short time restore the catarrha, bronchial, dyspeptic, rheumatic, and in fact all sufferers with chronic diseases, to perfect health. The statements seemed extravagant when first announced, but time has proven that they were not as startling as ...ey should have been, as the above testimonial speaks for itself.

WHAT OTHERS HAVE TO SAY.

I have been totally blind for several years, caused by cataracts. Dr. Rama operated upon me three weeks ago and my sight is quite good, in fact I can read the newspapers with the aid of glasses.

W. V. JOHNSTON, Contractor and Builder, 702 S. Spring St. I have been deaf for several years, also annoyed with a fetid discharge from the ears. Dr. Rama cured me, and grateful I am.

FREE FOR FOUR DAYS MORE.

All patients placing themselves under treatment on or before January 10 will be given 10 days' treatment and medicines FREE OF CHARGE. All diseases and deformities treated but in no instance will an incurable case be taken for treatment. If your case is incurable they will trankly tell you so, also caution against spending more money for useless treatment.

CHANGES IN RACING CODE.

ANNAPOLIS (Md.) Jan. 5.—At a meeting of the Navy Athletic Association, steps have been taken to abandon football coaching by professionals. It was decided to request Dr. Paul J. Dashiell to act as head coach, to be assisted by former stars of the navy team only. Dr. Dashiell is chairman of the Intercollegiate Rules Committee. He is a professor at the academy. HART AND GARDINER MILL.

[BY THE ASSOCIATED PRESS—P.M.]

BOSTON, Jan. 5.—Marvin Hart and
George Gardiner boxed fifteen rounds
to a draw at the Criterion Athletic
Club tonight. During the first part of
the contest it looked as though Hart
would win. In the second round Gardiner was knocked down twice and only
excellent blocking and holding saved
him from a knockout. Navy Athletes Choose Coach. Fencing Tournament.

Tee Much Display.

The war against picture machines exhibiting immoral scenes is being vigrously waged. Last night a Japanese place at No. 610 North Los Angeles street, was raided by the police, and three machines seized, K. Kimura was arrested, and will be given a hearing today. Kimura claims that the machines are owned by W. H. Clune of No. 737 South Spring street.

Stele Child's Savings.

Ed Wast, who resides at No. 2217 Bast Main street, reported to the detectives yesterday that his house was entered by burgiars Monday afternoon while the members of the family were absent. The thieves made a thorough search for valuables, but found only a child's iron bank in which there was about 425, the savings of several years. The burgiars broke open the bank and took the money.

Holmes's Lestures.

Burton Holmes lectured to a large audience in Blanchard Hall. His subject was "The Yellowstone Park," litustrated with magnificent colored views. Tonight his subject will be "The Kosemite Vailey." The views that accompany this incture were made during an extended personal investigation of all the well-known points in the valley, as well as many of the out-of-the-way and unusual places.

Rebbed a Supervisor.

Burglars forced an entrance into the store of Supervisor Wilson, No. 4410 Vermont avenue, early yesterday morning. The store extends from Vermont avenue to McClintock avenue and the thieves made the entrance on McClintock avenue. They were heard by members of the family and the alarm was given, but before the policarrived the burglars escaped. They secured \$15 from the cash drawer.

Lost His Baiance.

Charles Wagenbach, the 14-year-old son of Charles Wagenbach of No. 731 Griffith street, fell from a hay wagon in Hollywood yesterday afternoon and sustained a fracture of the skull. The young man was riding beside his father on top of the wagon, and accidentally losing his balance, fell to the ground, striking on his head. Concussion of the brain followed, and henow lies at his home in a precarious condition.

tracks at Watts at 3:20 p.m. yesterday in front of Long Beach car No. 261, south-bound. The rear of the big wagon was thrown sharply about and Martin was hurled a short distance, but fell on the top and side of his wagon, which was demolished. He appeared to be not seriously injured.

Merinett Was Slow.

D. Hartnett, an employé of the Baker Iron Works, made a belated report to the detectives yesterday of a hold-up which accurred Friday night and which he failed to report sooner because he said he desired first to secure the numbers of a watch which was stolen from him. If there had ever been any chance of capturing the highwayman it was removed by the delay in making the report and from the man's manner the officers infer that he may not have been held up at any time. According to Hartnett's tory he was waking home last Friday night when he was accosted on Bellevue avenue near Buena Vista street by a masked man, who covered him with a gun and robbed him of his watch and 14. It was so dark there that Hartnett can give no description of the highwayman.

BAKER & HAMILTON,

The5-year-oldsaid: "They've put that Sime baby into panis before they know whether it is going to be a boy or a girl!" The taillor that isn't all a tailor should be, often puts a man into a tight Surtout overcoat or some such extreme style before he knows it is going to become the man or not. One of the advantages we offer is the advice of our expert fabric and fashion men. Guess they're responsible for the fact that a Brauer & Krohn customer's clothing always becomes him.

SECRET WORK CAUSES ALARM,

Strange Building for Unknown Purposes.

Mysterious "Eastern Capitalists" Backing Enterprise.

Something New Here, But Common in the East.

A mysterious building is being con-structed under sealed orders on Grand avenue.

Neighbors about there are arraid it, is to be an undertaking establishment, or even worse. They think that it is being kept a secret for fear they would interfere legally if they knew the dark mystery. Their nervous systems are worn with anxiety.

They have tackled the architect; but he only looked mysterious. They have

he only looked mysterious. They have asked the contractor, but he gave them a mystic stare. The workmen on the building were besought for the key to the secret; they shook their heads and said they did not know. The agent and the mysterious representatives for the more mysterious "Eastern capitalists" will give only the locked-secret simile.

All that can be get out of any of

the locked-secret smile.

All that can be got out of any of them is that the building is for a business enterprise backed by "Eastern capitalists:" that it is something not known hitherto in California, but known in the East.

It must be chiliblains.

This refusal to tell until the building is done the neighbors consider a very suspicious circumstance.

What do you suppose the thing is for, anyhow?

or, anyhow?
Is it going to be a ghoul-shop, or

Is it going to be a guode-now, worse?

The thing is located on Grand avenue just below Washington street, on lot? of the old Ganahi and Spitley tract.

The property belonged to Mrs. Wintfred Hunt and was sold to Eastern capitalists through the Adams-Phillips Company in the name of one Graves. They won't tell anything was.

FOR TEBEPHONE USE?

T. W. Phillips of the Adams-Phillips
Company, and Home Telephone Company, was more mystic. "I am not
at liberty to tell what sort of a building it is to be. I can assure the people out there that it will not be an
undertaking establishment."

He was asked, "Is it to be a business block?"

"Can't say."

Train and Williams, the architects of the building, were also wary.

"Really, I can't say what it is to be for," said Mr. Williams. "Come, look at the picture of it." (It was a low, stone-front building that might be for anything from a telephone office to an understance shop.

"What is it for:
"I don't know."
"Can't you guess pretty close to it?"
"I don't know; I am not paid for guessing. My only interest is the building of it and drawing the fee."
"Why should it be kept a secret?"
"I don't know unless because the owners don't want to tell." (Happy Thought.)
The cause of all the trouble was found to be a trench and the beginning of a cellar. The boss of the works was wheeling cement barrels around. He looked up with a patient smile.
"Another one," he said. "All the neighbors have been here. One man comes around every morning and says he will bring suit if it is for a business block or an undertaking shop. They keep demanding of us to tell."
"Then why don't you?"
"Cause I don't know. They haven't even shown me the plans as is usual. The architect just showed me where to dig and how far and I due. I can't imagine what the secret is about. I guess nobody is going to find out. I should like to know myself."
"It looks like some sort of a business block; it can't be a house. I never saw a house built square like that. That hole they say is for a cellar. I am sure I don't know."

THE RIDDLE.

In the midst of all the mystery there is only one thing evident. The builders of this thing do not want the adjoining property bolders to knew what it is until after it is all built and it i stoo late to make a fuss about it. Riddle: What is it, that is well enough known in the East, but has not been on this Coast yet, and takes a building on Grand avenue next folks houses to hold it?

from San Bernardino, the scene of his alleged crime, is A. B. Sherwood. He is charged with burglary, and there appears to be a very strong case against him.

Sherwood is an oily individual who pretends to be an apostle and exemplar of Christian Science. It is alleged that he practiced the scientist cult in order to gain ascess to the homes of the victims of his burglarious graft.

The oleaginous individual was preaching Christian Science in San Bernardino last week, and on the last day of December, according to police advices, was entertained at the house of Mrs. H. M. Muscott, a disciple of Christian Science who mistook Sherwood for one of the elect and extended to him the hospitality of her home. While in her house as a guest. Sherwood expressed a desire to be left alone for a brief time while he wrote a letter. His hostess provided him with pen, paper and ink, and left him at her secretary while she went about the house in discharge of her household duties.

EVANGELIST ALLEN PREACHES TO PERSONAL DEVIL.

Many Converts at First Methodist Episcopal Church—Pathetic Sing-ing of Blind Couple—Meetings to dance Nightly.

Revival fires which were kindled at the First Methodist Church last evening are glowing brightly, and will continue all this week. There have been twenty-five or thirty conversions, and the meetings are full of deep in-terest, although, so far, they have been devoled of the exciting scenes some-

terest, although, so far, they have been devoid of the exciting scenes sometimes witnessed at Methodist revival services.

Last night the large auditorium was filled and people were standing. Rev. Charles B. Allen, pastor of the St. James Methodist Church of Denver, was the prencher, and the doctrine of a personal devil was set forth in striking words.

Mr. Allen based his sermon on the gospel account of the man who was possessed of a devil and lived in the tembs. His word pictures were vivid, and his application of theme to present-day affairs and people was apt and convincing.

The sermon was followed by an ex-

Aging werds.

A second control of the sun with a serious on the government of the sun with a serious of the sun with a ser fore leaving professed to have become converted. He was asked to call the next day at Dr. McIntyre's study in the church, as the doctor thought he might be able to further help him.

Yesterday the young man called on Dr. McIntyre and made a startling confession. He said he had been a criminal for the past eleven years, and that he had served time in jalls and reformatories. He had entered the church last Suunday evening with the intention of stealing some man's overcoat, as he had often done before, and pawning it. This was the reason he was watching those who passed in and out the doors, and he had just seen someone go out into the hailway and lay down a coat which he planned to secure, when the worker came and pleaded with him to go to the altar. He could not resist the appeal, and this had determined him to abandon his evil life.

The young fellow had been a morphine user, and had inciplent consumption; he desired to get out in the country somewhere, that he might find outdoor empleyment; and yesterday he went out to the orange groves to pick fruit. Before leaving he made a vow that he would die of starvation before he would dagain oesome a thief or return to his evil life.

The narration of this young man's history created a deep impression on the congregation, and was followed by an appeal from Dr. McIntyre to those who, like the young man, would commence a new life.

There were many responses and the kneeling penitents soon filled the space at the altar rail.

There was much spirit in the music, led by Evangelist W. B. Bell; and a striking feature of the evening was the music of Mr. and Mrs. Baker, two blind singers from Philadelphia. Mr. Baker is a white-haired old man with a rich tenor voice, and his singing, which was accompanied by appropriate gestures, was touching in its earn-ediness.

FOUND HIS LEVEL. W. T. Fogarty was found unconscious on the sidewalk near the Broadway entrance to the Courthouse grounds last night, suffering from concussion of the brain, several wounds in the scalp and incidentally the effects of a jag. He was taken to the Receiving Hospital and for a time it was supposed he had been assaulted on the street and every effort was made by the officers to ascertain who had done it. Later it was learned that while drunk he had fallen off the coping of the Courthouse yard.

INTIMIDATION

Nervy Act of the "Golden Gate Credit Company."

Attempts to Force Money from Duped Persons.

Sends Threatening Letter Which is Harmless.

If any proof were needed of the fake character of the "Golden Gate Credit Company." No. 215 Henne Building, Los Angeles, which sells for \$15 and offers to give away on certain 4erms watches which are actually worth no more than \$10 or \$12, that evidence is found in the threatening letters just sent out by the company to persons who have failed to make payments.

the illegitimate nature of the company, for they attempt to force purchasers to pay twice the value of the article to pay twice the value of the article sold, and threaten legal expenses amounting to double the original purchase price of a watch in case purchasers fail to fulfill their worthless contract, thus using intimidation as a means of conducting their business. This new scheme is as palpable a humbug as the company's original watch proposition. It is purely an attempt to coerce "suckers" into sending good money after bad. But unfortunately for the "Golden Gate Credit Company" its threats are ludierous, because they have absolutely no legal backing, and persons who have received them need not be in the least alarmed.

TIRED ONES PRODDED.

It will be remembered that the "Golden Gate Credit Company was exposed in The Times several weeks ago. Briefly, the company sells alleged gold or gold-filled watches for 325 which jeweiers say are worth from 316 to 312, and which they offer to duplicate for that amount. The terms are 35 down and balance in installments. If you induce five other "suckers" to buy watches on the same terms, you get a watch free. It's a sort of endless-watch chain.

Many persons who went into the scheme when it was first "sprung" here, seeing they had been duped, concluded to lose their original 35 and whatever payments they had made rather than sink any more money in the scheme. Many of them had possession of their watches, and concluded to keep them in exchange for what they had paid in.

Accordingly, the company under date of January 2 sent out letters to those who had failed to make the required payments, these letters containing threats of legal troubles galore if delinquents failed to pay up.

DIRE THREATS.

It should be noted that the letters are dated San Francisco, January 2 are

and contents of the jetter strongly mark
the fake character of the business.

NOTHING TO FEAR.

Those who receive these letters have
absolutely nothing to fear. Legal opinion was obtained yesterday, which satisfies The Times that the threats contained in the letters are nothing more
than idle vaporings. The contracts
made between the company and customers are signed by "The Golden Gate
Credit Company, 20 Emma Spreckels
Building, San Francisco, room 2, No.
24 Santa Clara street, San José, and
215 Henne Building, Los Angeles."

Any action in a civil case involving a
sum less than \$300 must be brought in
a justice court. Furthermore, section
106 of the Code of Civil Procedure,
which defines the jurisdiction of the
Justice Court, provides that such action
must be trought in the county in
which the contract is issued, and in
which the defendant lives It is, therefore, manifest that the "Golden Gate
Chedit Company" is wasting words
when it threatens to sue in San Francisco county persons who live in Los
Angeles county and on contracts which
were made in Los Angeles county.
But suppose action should be
brought (a very remote possibility because concerns of this strips are not
seeking but avoiding courts) in San
Francisco. Suppose also that the justice consented to enter judgment
against the defendants. The justice
would be entirely outside his jurisdiction and the judgments would be utterly worthless and would never stand,
it is not at all probable that a justice
could be found so lacking in legal lore
as to enter judgments in a case of this
kind, for the Code of Civil Procedure
is very lucid in defining the jurisdiction of justice courts.

Even if the matter should be taken
into the Superior Court, which would be

kind, for the Code of the Jurisdic-tion of justice courts.

Even if the matter should be taken into the Superior Court, which would be the court of next resort, every case would be sent back for trial to the county in which the contract was made and in which the defendant lives.

A well-known Los Angeles attorney, many of whose clients bought watches from this company, said yesterday:
"I am advising every one of my clients to stand pat and pay no attention whatever to these letters. Judgments can never be obtained, and even if they were entered they would be utterly worthless. What's more, some of my

clients are planning action against the company for using the mails to carry threatening letters, and I believe this use of the mails is actionable. We propose to put this rank fake outfit entirely out of business. One man told me he would spend \$250 in court costs rather than pay another cent to this concern, and a dosen or more of my clients who were 'taken in are forming a pool to prosecute the 'Golden Gate Credit Company' and drive it out of the city."

CIVIL-SERVICE CLASSES.

of the fire department was adopted at the regular session yesterday after-noon. Firemen are divided into six classes, as follows: Class 1—Assistant chief engi-neer; class 2, captains of the first and second class; Class 3A. lieutenants; class 2B, engineers of the first, second and third class; class 3C, drivers of the first, second and third class; class 4, hosemen, laddermen, tillsrmen, stokers.

4. hosemen, laddermen, tillermen, stokers.

The new classification is so arranged that the hosemen can take the examination for drivers, engineers or lieutenanta, the engineers or drivers can take the examination for lieutenants and the lieutenants for captains and the captains for assistant chief. But drivers cannot take the examination for engineers nor vice versa.

In connection with this classification, the Civil Service Commission discussed briefly the proper classification for the secretary of the department. No conclusion was reached, except that it devolved upon the Fire Commission to settle upon the classification of the secretary.

settle upon the classification of the secretary.

There has been an attempt to do Democratic politics in this connection. But the Fire Commission wanted the Civil Service Commission to turn the trick. Yesterday the 'Ivil Service Commission passed the question back to the Fire Commission.

At present Robert Burns, better known as "Bobble," holds the position of secretary in the department. He has worked his way up from the foot of the ladder. Because of the illness of Assistant Chief O'Donnell, Burns is now acting as assistant chief. The commission issued the order last Saturday, and it was sent by the Chief to all the companies. This action was not taken by the board openly, however. For some unexplained reason an executive session was necessary. The board gbt into a hayloft somewhere, battened down the hatches, and then sent in a still alarm.

BRIDGE BIDS.

BRIOGE BIDS.

TWO CONTRACTS AWARDED.

J. D. Mercereau, a local bilder, was awarded the contract for the construction of the Fourth-street bridge by the Bridge Committee yesterday afternoon. Mercereau's bid was 44.482.20. The next higher bid was that of Cotton Brothers & Co., whose proposal read 49.483.72.

The contract for the Pasadena-avenue bridge across the Arroyo Seco was awarded to the Clinton Brider and from Company of Clinton. Iowa, on a bid of \$8531.20. H. S. Farnsworth was the next higher bidder at \$7701.10. George E. Wilson represented the Clinton Company yesterday, and he caused a smile to pass around the room by suggesting that a time be chosen for the construction of the bridge, when the water in the stream would cause the least trouble. Visions of the Arroyo Seco, a dry wash for 260 days out of a year, flashed before the Bridge Committee and provoked a smile.

Bids for the construction of the Macy-street bridge were taken under advisement. The San Francisco Bridge Company bid 512,484, and. according to a revised interpretation of the Macy-street bridge were taken under advisement. The San Francisco Bridge Company bid 512,484, and. according to a revised interpretation of the bid, H. S. Farnsworth bid 512,540.55. Farnsworth is a local bidder, and the committee would much prefer to have him do the work. There is a doubt whether the award can be made to other than the lowest bidder and this point the committee will try to decide by Monday.

The statute says that the contract shall be awarded to the lowest responsible bidder, and gives the Council the right to reject any and all bids. City Attorney Mathews is inclined to the opinion that the contract must go to the lowest bidder if responsibility is proven.

Huehner offered him a giass of wine and acutated by the spirit of the season he drank it. Then Huehner said that he had another wine which was better, and poured him a glass of that. McClure got out of the front door, a retreating in good order, but soon after the wine placed him hors du combat. He tried to call up the Police Station and the stayed on his beat until after midnight.

Chief Elton spoke a good word for McClure. He said he was a conscientious officer, and always did his full duty. Commissioner Rule suggested a aght fine, and fixed the amount at \$50. McClure was reinstated.

Attorney Charles McFarland tried to get a rulling from the Commission belocated on the exterior side of streets bounding the saloon zone. City Attorney Mathews advised the Board that the ordinance was not clear on the point, and stated his belief that saloons could not be placed on that side of the bounding streets. McFarland then withdrew his application, which was in the name of McMueller, and asked a change of location from No. 130 West Seventh street to No. 102 West Ninth street.

The City Clerk was instructed to discontinue the license of the resort thrown as "Ed's Place" in the rear of the drug store at the corner of Ploc and Figueroa streets. "Ed's Place" is a pool room, but the Chief reported that liquor had been brought into the room and consummal there in violation of the ordinances and that the place was run in a disorderly manner.

Mayor Snyder stated that owing to the absence of two members of the Commission—Lang and Craig—the consideration of the officers was by way of compromise of a civil suit.

Officers Before Grand Jury, and Grafting Character of the Scheme Unfolded—Immense Profits to In-siders and Collapse as Final Result.

The grand jury has been delving into the intricacies of the Cumulative Credit Company's business. That it is a real good business—for the company—has been apparent for some time. The offices on Broadway are extensive, well appointed, and in a measure luxurious, and the cost of keeping the broad span of window space in such a polished condition that the suckers may see themselves as they pass cannot be a trifle.

The literature of this company is at-

not be a trifle.

The literature of this company is attractive beyond almost anything in the get-rich-quick line that has been issued in the city. It gives a great array of figures to prove the contention that the condiding investor may get constitute for nothing but there is a

of this way of lifting yourself by your bootstraps.

When the scheme was first floated about two years ago the originators had about \$1500 working capital—or, at least, they told the grand jury that. There are outsiders who have not been before the grand jury at all who say that this amount was simply fixed upon in the wild exuberance of the officials' imagination. But be that as it may, the officers stated that they had that amount as a working capital to begin with, but the equipment of the offices with all the paraphernalia of an outward prosperity that has so much to do with beguiling the elusive dollar from the pockets of the public, cost a good deal more than the sum named. Just how the deficit was made up was not explained.

That is one of the beauties of this

pay maturing certificates. It requires no prophet or son of a prophet to fore-tell the day when maturing certificates overtake the amount lying in the Credit Fund. To exist, the company must have new suckers, for it is the money of the new ones that pays the claims of the old ones. A cessation of the influx of new payers means collapse,

FIGHTING FOR POINTS.

been sustained by Judge Morrow in the United States Court.

Inasmuch as the countles are making common cause in the fight being made, this action up north was received by the Supervisors yesterday with satisfaction. The Vacaville suit involves a claim for \$500 royalty, \$1000 as damages, and an attempt to enjoin the city from putting oil on the streets of the city.

This makes the fourth suit brought by the Dustless Roads Company, One brought against Los Angeles county was thrown out of court on a technicality; one against Vacaville, now disposed of en demurrer; and one against Long Beach and one against Sacramento, both of which are now pending.

WHITTIER CASE TRANSFERRED.

WHITTIER CASE TRANSFERRED.

The rather exceptionally curious quiet-title suit being heard by Judge Allen, wherein Minnie Clayton was trying to settle her title to a piece of property at Whittier to which David and W. P. Cooper claimed title, petered out yesterday morning.

Judge Works and Attorney Monroe, representing the plaintiff, saw Judge Allen in chambers before court convened and intimated that they were going to have the case dismissed. Judge Allen, naturally assuming that that was the end of the case, discussed certain of its phases with counsel. Then when the trial was resumed and the motion to dismiss had been made the defendant objected. They wanted the trial to proceed, and it developed that they were within their rights in objecting to a dismissal if they so chose. Under those circumstances the court felt some delicacy in proceeding after having expressed himself on certain points, though Attorney Adams, for the defendants, was quite willing that Judge Allen should hear the case. Under the peculiar condition that had arisen, however, the court decided otherwise, and by agreement the case was transferred to Judge Wilbur's department, where the evidence will be gone over again.

HUMANE SOCIETY BEGINS WORK.

There was little out of the ordinary run of such cases with one exception, but the equipment of the offices with all the paraphernalia of an out-word prosperity that has so much to do with beguiling the elusive dollar from the pockets of the public, cost a good deal more than the sum named, by Just how the deficit was made up was not explained.

That is one of the beauties of this These are the days of new things. There is the "New Thought," and so why not a "New Finance," and so the Cumulative Credit Company proceeded to juggle the people's brains with their circulars, and quicker than winking between the camp. discovered Mrs. Anderson sitting on the front stoop of his house on Grand avenue, or rather he was informed of the fact, for being a street-car conthe fact, for being a street-car conductor he was away most of the day at work. She began her lonely vigil at about 6 o'clock in the morning and continued it until about the same hour in the evening. That alone would not have been particularly disturbing, but Mrs. Anderson had just made her escape from the County Hospital, where she had been sent suffering from diphtheria. When the full situation broke upon the residents of the Grand avenue house, there was a hurry-up call for Dr. Powers, the city Health Officer. He stated yesterday that he found Mrs. Anderson placid enough and didn't think that she was insane, but only obstinate. But Willhite wasn't going to have any woman camping on

OFFICERS APPOINTED.

The new Detention Home for juvernile offenders to be established in the old County Jali will very soon be in full working order. Workmen are now busily employed in fitting up the upper story, and the place is expected to be ready for occupancy in a few days. A day or two ago the Supervisors appointed Mrs. Pratt as mattern of OFFICERS APPOINTED. A day or two ago the Supervisors appointed Mrs. Pratt as mairon of the new Home, and as she has had a varied experience in reformatory work among children at the Orphans Home, the McKinley Home and elaswhere, it is expected that she will prove of value. Testerday other officers were appointed. Maj. Oliver, who has served as probation officer since the organisation of the Juvenile Court, is to be the guard, at a monthly salary of \$75; while Thomas Murphy, who under a previous regime was one of the turnicey's in the jail, will be the assistant guard, also at a salary of \$75 a month.

COURT NOTES.

BREVITIES MISCELLANEOUS. GAME OFFENDERS. In his report for the year 1903, just filed with the Supervisors by Game and Pish Warden W. B. Morgan, it is shown that during that period of time there were nineteen prosecutions for the infringement of the law, and of these sixteen resulted in convictions.

ROSS DIVORCE. Margaret M. Ross was granfed a divorce from Peter M. Ross by Judge York yesterday. The parties to the suit had lived in San Francisco, where the husband became infatuated with a Miss Alice Fox and his attentions grew to be so open that his wife returned to her parents in this city

SAFETY IN THE THEATERS.
An inspection of some of the city theaters was made yesterds; morning by Building Superintendent Krause and Fire Chief Strohm. Particular attention was paid to the Grand Operahouse on Main street, which is the oldest theater in the city. The management processed a willingness to comply with any requests that the officials might make, and as work on the desired changes was at once begun, the theater was not closed.

The closed exit on the south side of the house will be reopened, and made to connect directly with an alley instead of with the harness shop of J.

GENERAL BUSINESS TOPICS. ORANGE SHIPMENTS. The shipments of oranges for Monday were 19 cars. Two cars of lemons went eastward and 22 cars of oranges to Coast points, making 2348 cars for the season.

OUTLOOK FOR 1904. The Pacific Coast has enjoyed an exceptionally prosperous year, and it looks as if 1904 will be still better. The opening up of the Orient to the world's trade has drawn attention to this coast as the key to the situation. That this is fully realized is witnessed by the strenuous efforts put forth by leading eastern railways in securing by construction of their own direct lines to the Coast, or else securing favorable terms from or else securing favorable terms from the railways that have already been built across the continent.—[San Fran-cisco Trade Journal.

Sam Alexander's ability with a shotgun is too well known to local trigger

Vinol the Only Cure for Spomach Troubles.

Hon. D. H. Barker, Deputy Sheriff of Chattanooga, Tenn., writes:

"As I have suffered for years with dyspepsia and stomach troubles, and Vinol has driven that dreaded disease from my system, I am only too pleased to state my experience for the benefit of others. My system became so enfeebled by indigestion that I was unable to work half the time. Many remedies were given a trial, but Vinol was the only medicine that benefited, and finally cured me completely. I am so grateful to be rid of this trouble that I trust this testimonial will come to the eyes of other sufferers who may be benefited as I have been by Vinol."

Vinol contains no drugs, and no nauseating oil, but it does contain the vital principles of cod liver oil which will heal and tone up irritated, worn, tired stomachs.

If any person in Los Angeles tries Vinol for stomach troubles, for a run-down, debilitated condition, to give strength to the weak, to gain flesh, to invigorate oid people, to make rich, red blood and build up the convalescent, to cure hard colds, stubborn coughs or bronchitis, and it fails to give sat-isfaction, we will refund the money paid for it. PAVING AND PIPE.

LONG BEACH. Jan. 5.—Property owners along Pine avenue are anxious to pave that important thoroughfare, but they want first to have heavier water pipe placed there. The pipe now in use breaks frequently, and they feel that it would be throwing money away to pave over it. City Engineer Foster has been instructed to inspect the pipe and if it is found to be defective. new will be ordered in and the work of paving will be taken up at once.

PLEASURE WHARF PLANS.

There seems to be some fatality connected with the plans and specifications for the new pleasure wharf. The first set was lost in the mails, and now Attorney Baker has found what appears to be a discrepancy in the substitute set which necessitates their being referred back to Engineer Holmes. This will delay action on the wharf at least anether week.

American avenue, which is one of the finest drives in this section of the State, is to be improved with asphalt crosswalks as far north as Tenth street. A resolution to that effect was adopted at the meeting of the Council last night.

HOUSE BURGLARIZED.

During the absence of the family yesterday afternoon late the home of Mr. and Mrs. Meadenhall, on the corner of Sixth street and American avanue was burglarised of \$3.20. In going away the key was left under the mat on the porch, and the robbers must have observed it, as they used the key in gaining entrance. The house was searched thoroughly, but nothing but the money was taken. One of the three fine watches in sight was taken apart and the wheels scattered about, and several valuable rings were left untouched. It was evidently the work of amateurs, and some wayward children in the neighborhood are suspected.

During the past month there were thirty-four building permits issued, aggregating \$35,641. During the same time there were issued eighteen permits for alterations and sixteen for removal.

CLAREMONT.

A WATER SUCCESS.

CLAREMONT, Jan. 5.—Two-thirds of the stock of the Claremont Citizena' Light and Water Company was represented at the annual meeting in Holmes Hall chapel. President E. C. Norton and Secretary L. T. Gillette gave their annual reports. The remarkable success of the company was evident from the facts given. With less than \$16,000 expense—the amount set apart for the purpose—a complete domestic and irrigation water system has been established. From the company's well, west of indian Hill, a six-inch main carries the supply, with a rapid fall, to the residence district. Four-inch laterals carry it from the main street to every residence; also to a number of orange grove. Fire hydrants have been placed at the street crossings, which have aiready caused a decisive drop in fire insurance. The water pressure has been increased to 30 feet at Pearson's Hall of Science and reaches the 256-foot mark at the postoffice. In spite of all these new facilities, the water rates are fully 20 per cent. less than those charged by the Consolidated Water Company of Pomona.

E. C. Norton, L. T. Gillette, L. N. Smith, C. C. Johnson and George R. Sumner were elected as directors for the ensuing year. The latter was elected to take the place of Dr. George A. Oates, resigned. The following

COMPTON. BUILDING WATERWORKS.

COMPTON, Jan. 5.—Waterworks with good pressure are to be established here within a short time. At a meeting of the Compton Water and Lighting Company last evening a contract was let to S. J. Smith for the building of a water tower. Mains of the present distributing system are to be considerably extended. Work is progressing on the boring of a teninch well which will probably be sunk to a depth of 256 feet to tap the artesian stratum. From that stratum there is pressure sufficient to force the water several feet above the ground. With the plant and power service that are to be installed a forty-foot pressure is to be afforded. The present pressure is rather light. It is expected that the higher pressure will be in operation within a month. The matter of installing electric-lighting service is also being considered. The scheme of an independent COMPTON, Jan. 5.-Waterwork

lighting service is also being covered. The scheme of an independence power plant is being favored.

In Japanese Style.

The home of Mrs. Louis Meyer, No. 22 Burlington avenue, was the scene of a unique Japanese tea Monday aftersoon. The dining-room was transformed into a beautiful tea garden. Bamboo was arranged to make a canopy over the top of the room, and the walls were covered with feathery bamboo, until the room way a bower of green, with enly the wildows remaining to show evidences of a dwelling. About the room red lanterns twinkled, and Japanese umbrelias hung over the small tables. The tables were covered with blue and white crépe, and set with Chinese lilles, and candelabra made of bamboo, with tiny red Japanese lanterns. The refreshments were served in the real Japanese style, each lady had a little tray, with individual sinkes, in which were preserved ginger, and other viands of Japanese make. Pretty little malids from Japan in their native costumes, waited on the guests and added to the oriental glow in the room. In the evening dinner was served from the same tables to the guests, about twenty in number.

Mome Wedding.

Last evening at No. 1782 West Twenty-fourth street, the home of the bride, Miss Blanche Marmon, formerly of Lima, O., was married to Kenneth Boone of the same place. The wedding was a green and white affair, the whole house was in these colors. The front room was trimmed in smilax, white carnations making a dainty contrast against the green. The drawing-room, in which the ceremony was performed, also had a canopy of smilax, with clusters of lilles and chrysanthemums in white. The mantel in front of which the ceremony took place was banked with lilles and ferns, and made a pretty background for the bridal party. In the dining-room smilax, was used to make a bower of green, and chrysanthemums were placed here and there against the green. The table had for a centerplece a tall vase with a few of the gorgeous flowers in it. The only touch of color in the house was on the sideboard, which was banked with American Beauty roses, making a brilliant patch in all the greenery.

The State, Beekeepers' Association
in session in the Chamber of Commerce, spent its time yesterday talking
upon the very important question of
honey adulteration. Members left the
room and bought sample jars at city
stores, bringing them into the meetling to be sampled. Some contained
about as much glucose as honey, but
others were pronounced pure.

The discussion resulted in the appointment of a committee, comissing of
Dr. L. C. Maynard, G. W. Brodbeck,
and Secretary McIntyre, to coöperate
with the Executive Committee in their
efforts to stop adulteration.

In the course of her remarks she mentioned Dr. McDougal as the founder, and Mrs. Flora Adams Darling, a descendant of Martha Washington, as interested at the same time in organizing such a society.

scendant of Martha Washington, as interested at the same time in organizing such a society.

Another topic of interest was about the old barracks in Trenton, N. J., which was built in 1758, and which has been preserved through the worthy efforts of the Daughters of the Revolution in Trenton, N. J., of which chapter Mrs. Compton was a membor before timing here. The society has its rooms in this interesting old building in Trenton, and it is filled with historic relies donated by members of the society there, who belong to the oldest families. After the programme, refreshments were served, and a jolly afternoon was spent. There are about fifty members of this chapter, of which Mrs. Henry C. Gooding is Regent; Mrs. Mary Banning, Vice-Regegt; Mrs. Mry Stillson, Secretary; Mrs. A. C. Adair, Corresponding Secretary; Mrs. Dr. John McCoy, Historian; Mrs. Frank Compton, Registrar.

Surprise Party.

Mr. and Mrs. I. Citron of No. 1460
Temple street gave a surprise party on
Sunday night in honor of the twentyfirst birthday of Al Horwitz. The
event was a "stag" party, and there
were just twenty-one of Mr. Horwitz's
young friends who sat down to the
table. The house was prettily decorated with smilax and roses, and many
handsome gifts were received by the
young man, among which was a beautiful desk, presented by the members of
the Young Zionist Association, of which
Mr. Hogwitz is an active member, having had a medaj sent all the way from
New York on account of his good work
done in behalf of the society. At the
elaborate supper that was served the
toasts were many and varied. George
M. Black acted as toastmaster.

MILKING OF SAINT DIMAS

Water Litigation Where No Water Gurgles.

Hard Fought Case Continued on Court Calendar.

The Many Corporations of Sun Dimas Canyon.

The history of the water litigation in San Dimas Cañon, which had its latest chapter written in Judge Allen's court yesterday, is more complex than the street-sprinkling question. It is quite incomprehens

It is quite incomprehensible in some respects. It is said to be a fact that there is no water in the canon when it is needed—not a drop—but there is a plenty of it when none is wanted.

plenty of it when none is wanted.

Think of suing and being sued for a decade or two for wateriess water at the bottom of a dry well!

The beginning of the misfortunes that befell the water that used to run in the under-strata of San Dimas Cafon—and likewise of the people who sought to milk it out—dates back to 1885. In that year "Col." T. W. Brooks be-

gan the "promotion" of the San José Ranch Company, which included the development of an elaborate water sys-

development of an elaborate water sys-tem in San Dimas Cañon, and the "colonel" was not easily discouraged. He actually cut 900 feet of tunnel through solid rock and constructed several miles of open ditch for con-veying the water. Many people became interested with him, but from the first it was apparent that the water supply was limited and the work expensive, and the money disappeared like water in a gopher hole.

Brooks, however, was confident of success—so confident, in fact, that he "promoted" at it until he had sunk \$20,000 and lost his hold on the property

Wicks and the ranchers could come to an understanding.

They finally got together and Wicks persevered until he had sunk more than \$160,000 in the venture. A part of the work consists of two steel mains—one twelve and the other sixteen inches in diameter—laid for a distance of about four miles, one directly on top of the other.

In its palmiest days it is said there was not sufficient water in the unifon to fill either one, and at this day nobody can make a respectable guess as to why Wicks laid two pipes.

It was admitted by one of the atterneys yesterday that for ten years past it has not been possible to obtain any water from the cafion in the dry season.

water from the cañon in the dry season.

Ever since the failure of "Col."
Brooks this matter has been in the courts, running through about fifteen years. During these years reorganization has followed reorganization, each new company succeeding to the rights of its predecessor. The original company has been successively knewn as the San José Ranch Company, San José Land and Water Company, and finally San Dimas Reservoir and Water Company, and finally San Dimas Reservoir and Water Company,

to be elucidated.

Many prominent clizzens of Los Angeles have from time to time been financially interested in the several San Dimas schemes, and probably still have something coming.

One case was argued before Judge W.-H. Clark. now deceased. After deliberating over it for five years, the judge finally non-suited the plaintiff on the ground of insufficient evidence, and the case was carried to the Supreme Court. That tribunal sent it back with the declaration that a decision must be rendered on the merits of the case. Meantime Judge Clark had died and the case was dismissed.

Another case is still before the Supreme Court, having been carried up several years ago, and a decision is looked for. Whichever way it goes, it wilf be carried to the Supreme Court

RUDE MANNERS.

At other times Winters was blunt, if not rude. To an earnest old lady who had gone to the platform with the crowd, to be healed of divers troublea, he said in a loud, impatient voice, heard all over the house:

"Oh, you talk too much; my time is limited; why don't you tell me?"

To a parent who took a child forward, and not knowing just what to do, touched Winters on the arm to call his attention to the child, the "healer" said loudly and mechanically:
"I can't do anything for you; go home and fast for twenty-four hours and I'll pray for you."

This was repeated to others, but a great number were sorted out and sent to the platform, where they were seated with their backs to the audience. Two of these were carried up on chairs in which they had been brought to the temple-one a white girl and one a colored girl.

Winters's method was to go to each one and ask; "What is it you want to be healed of?"

As the "patient" repiled, Winters repeated the reply in a loud voice, and when he had gone the entire round he stepped to the front of the platform and called for quiet. He struck an at-

SUMMARY OF THE DAY.

This morning the Sewer Committee will consider the bids for the brick contract on the outfall.

Yesterday the San Francisco Bridge Company drew down its bid and check for the Macy street bridge and the prospects are that H. S. Farnsworth will get the contract.

Members of the Council returned their annual passes over the Salt Lake road to T. E. Gibbon yesterday.

The suit of Adam and Mrs. Christina Van de Goorberg against Albert S. Balley resulted yesterday in damages being awarded to the plaintiffs.

A jury m Judge Conrey's court yesterday returned a verdict for the Arnolds against the American Insurance Company, and the charge of incendiarism thus falls to the ground.

Next day, oftbeen went to Lawton and asked as a favor that he would let him have a few dollars, as he found that he had to run down to Los Angeles. When the size of the "touch" was mentioned, Gibson said that he might as well make it \$40, and he would give him an order for the amount, which would be telegraphed sometime during the day from the East.

When Gibson skipped for Los Angeles Martin took a train for the north, and at present, it is set known what other small amounts of money were obtained by the two adventurers.

THE COURSING MEN.

GIVEN TIME TO PLEAD.

The six men for whom warrants were issued by Judge Young on Tuesday, on complaint, sworn out at the Instance of the Humane Society, were arraigned yesterday. Joseph Chambille, P. W. Curtis, William Gelderman, J. Avila, E. J. Eubank and R. B. Morehead. The defendants were represented by Atterney George P. Adams, and they were all given until Saturday to plead. In the meantime they were released upon each furnishing 1150 bail.

He was working for Dunlay & Underwood the Eakersfield liverymen, and on May 19th skipped out with a wagon and team of horses, and nothing was heard from him that day to the time of his arrest. Constable Catlin picked up the man merely on suspicion, but upon inquiry found that he was wanted at islatersfield.

Sienfuegus stated to the constable that he drove the wagon and team nearly to Mojave, and then abandoned the wagon. He sold one of the horses at Mejives, and the other one when he seached Burbank.

will go in some official capacity from

the District Pederation.

The selection of delegates was followed by an interesting programme
conducted by Mrs. F. E. Trask and

Mrs. D. G. Johnson. In the absence
of W. H. Sanders, C.E., who was to deliver an address on "Forestry," the
subject was taken up by Mrs. Trask.

Mrs. Willoughby Rodman gave an inspiring talk on Arbor Day, explaining
fully the necessity for enthusiasm in
this worthy and patriotic cause. Much
discussion was evoked in regard to the
practical details of the work involved.

All were advised to avoid planting
trees above a sewer connection, as the
roots would necessarily work an injury, only camphor and orange trees
bing exempt. In this regard.

The subject of telephone poles was
taken up, and it was decided that
where there were no alleys, it would
be even better to have the bare, unsightly poles, placed in back yards
rather than to have them mar the
beauty of the front. Mrs. Rodman
spoke very confidently of the time
when Los Angeles as a larger city
would have all these wires in underground conduits.

An address, "Wild Flowers I Have
Known," given by Mrs. H. La Vern
Twining, was exquisitely dainty, and
almost redolent with the breath of the
wild woods favorites of which she told.

Two delightful vocal solos were rendered by Miss Tanny Marple, one called
"A Dream," and the other "Out of the
Deep," by Lohr, while an enjoyable
plane selection was given by Miss Nelille Chase delice the study at

Ruskin Art.

Mrs. Morris Albee led the study at the Ruskin Art Club yesterday morning, the subject dealing with the influences (especially the Italian influences) bearing upon the development of English art in the time of Elizabeth. Mrs. Albee briefly outlined the reason that no direct consideration of Shakespearchad been atempted, as their reverence for the subject would not allow them to dispose of it in a few moments. Mrs. J. W. Hendrick, the president read a paper, and also spoke of the "Character of Elizabeth, Child of the "Italian Renaissance." A paper upon the "Italian Echoes to be Found in Sidney and in Surry," was delightfully given by Mrs. S. B. McLenegan. Mrs. W. W. Stilson gave a happy little talk on "The Fairy Queen, an Epoch-Making Book," pointing out the indebtedness to Spenser of Tennyson, Keats and even John Bunyan.

Mrs. George Sinsabaugh read a paper on "The Italian Renaissance on the Elizabethan Stage." A brisk discussion followed as to the difficulty of appreciation of Elizabeth literature from the social and ethical standpoint of the present time.

The programme exceed with the read-

ing of an interesting clipping, by Miss Wadleigh, regarding the uncovering of a few feet of the base of the Louvre, which handsome base formed the first story of this historic building in the time of Louis XIV. To uncover the whole would cost f.1.000,000, so it has been decided to leave it buried under the heap of rubbish which has covered it for two centuries.

At the last board meeting of the Ruskin Art Club, Mrs. A. S. C. Forbes was appointed as a delegate from the club to the State Federation convention in Sacramento.

BAKERSFIELD, Jan. 6.—The annual report of President John M. Wright of the Peeriess Oil Company, and the Fulton Oil Company at Sunset, is completed, and will be mailed to snare-holders at once. It demonstrates the great prosperity that can be attained by a well-managed company.

The Peeriess Company has a splendid dividend record. Including the January disbursement this company has paid its stockholders over \$200,—two in dividends. The Peeriess is operating independently on a quarter section of \$1, 28, 28 at Kern River. The Fulton Company, at Sunset, is under

PRESIDENT'S REPORT.

changed into a water well and the com-pany therefore has only twenty-nine punping oil wells. Two new wells, in and 32, are drilling and now near com-pletion and when these are finished the company will continue drilling with one crew in order to keep up production, but no other important betterments are contemplated.

PRODUCTION.

Up to November 1, 1903, the production was less monthly than the amount deliverable monthly on the contract with the Pacific Coast Oil Company, but during the month of November the production was 161,285 barrels. The company produced 169,000 barrels and expects to deliver 200,000 barrels per month throughout the year 1904, including the 181,000 barrels in the reservoirs now.

In the Midway-Peerless well was encountered an unimportant stratum of oil and sand at 1150 feet; at 1177 feet a stratum of rich oil sand eight feet thick, but at 1203 feet was encountered water in quantity so great as to make undesirable the further deepening of the well; and it has been capped and dismantled. The indications are now that this property is too near the eastern border of the Midway Oil Belt to become of great value as oil property.

FULTON WELLS

Fulton wells 1, 2, 4 and 6 have the completed and perforated. Each is flowing through a packer and all are good producers. No. 2 is also a flowing well, but Nos. 2 and 5 are still in process of drilling. The first six wells are good for an aggregate flow of about 1000 barrels per day. These wells will be allowed to flow until the gas pressure relaxes, after which they will be pumped.

Reservoirs 1 and 2 with an aggregate eapacity of 218,000 barrels, are completed. The improvements on this property now include a bank of two boilers with boiler-house, four wells completed, two wells drilling, two wells (7 and 8) with derricks and rigs completed, two wells drilling, two reservoirs completed, two bunkhouses completed, and a large stable with corrai. The grading of the Sunset Railfoad Company's extension has been completed across the southwest corner of the property and trains will be running across the property by the time the reservoirs can be filled with oil.

COALINGA-PEERLESS.

COALINGA-PEERLESS. The first indication of oil in Coal-ings-Peerless well No. 1, was reached December 24, when a strong flow of gas was encountered; and a day or

been extended to the adjoining property.

In the opinion of the management, the striking of oil in this well is the most important event in the history of the Peerless Oil Company since the striking of oil in the first discovery well, the well above mentioned as Kern River Peerless well No. 2.

OIL COMPANY WINS. OIL COMPANY WINS.

The controversy between the Santa
Fé and the California Consolidated Oil
Fields Company over the right of way
for the Sumset Railroad extension has
been settled amicably and the guards
who have been patroling the territory
for several weeks have been withdrawn. The matter was compromised
and it is understood that the oil company has obtained the concessions desired from the railroad in return fothe right of way asked. No official
statement is obtainable.

American Women Torchon Lace Making

THIS GROUP OF PHOTO-GRAPHS ILLUSTRATES THE PROCESS AND SHOWS THE IMPLE-MENTS WITH WHICH THE LACEMAKER DOES

It is only of late that women are discovering how easy some of these attractive patterns are to do.

Since the discovery has been made several little classes with an enthusiantle patronage have sprung up in our different large cities.

The number of bobbins for the less a pretty and durable finish for the various articles comprised in the lingeric trousseau, and no experienced housekeever needs to be reminded of its many uses in connection with household linens.

Another good point is the inexpensiveness of the work. There is the first moderate outlay for the cushion and bobbin outfit. After that the only expense is for thread.

MAGINE for yourself a little social club with helpfulness for its motto.

A club formed of the pleasantest people in the world. People who are not multi-millionaires, not celebrities in any way, but plain-living home folk, with high ideals and well-ordered households. They, like you yourself, have their little trials and sorrows; they have a mistaken at times and have known, too, the saving tears of repentance, he of them, even the youngest member, has in the storchouse of her next some little harvest of experience from which another may profit. Imagine yourself cosily ensconced in a rocking chair and surrounded toble women of every age of life. By the mothers of upright sons and thers, by those who have nursed the sick and succored the poor, by rs, again, who have nobly met and wisely read the riddles of human rience; by cooks, the most reputable in their counties, and economists, "facing fearful odds," overcame them with courage and decision.

Such a club is the Council Chamber on this page. There are no membip tickets, no annual dues. It is free to all right-thinking men, maror single, old or young.

Will you join the club!

LOCAL PRODUCE MARKET.

The effect of the dry cold weather is distinctly visible in the vegetable market. Dealers generally expect nearly all vegetables to be scarce next week. Green peas and lettuce meet with small demand and are lower. Tomatoes are also weak, though good qualities are readily taken. HON. W. E. BORAH, A LAWYER OF HIGH CHARAC,TER.

His Retention by, Mr. Smoot Means, However, Nobel More Than the Employment of an Ordinary Attorney in an Ordinary Case.

WASHINGTO'S, Dec. 31.—As soon as announcement was made in this city that Hon. W. E. Borah of Boise, Idaho, had been swiected as an attorney to represent Senator Smoot of Utah in defense of his title to a seat in the United Styles Senate, the members of that body put into motion the machinery which every Senator possesses to obtain information concerning Mr. Borah, his standing, his antecedents and the remons for his selection in this important case. All of the facts concerning him are now before the members of the Senate, and they understand the situation thoroughly.

From a member of that body it v.as ancertained today that Mr. Borah is a membed lawyer, a great orator, a man a high character, never a petitifogger, always judicial and exceptionally competent as an advocate.

Senator Dubois has said of him: "I

aplendid lawyer, a great orator, a man of high character, never a petitifogger, always judicial and exceptionally competent as an advocate.

Senator Dubois has said of him: "I am very proud of Mr. Borah as a citizen of my State. He is a credit to the community and the commonwealth in which he lives. He is my personal triend and I am his friend. I cannot say anything about his retention in this case, however."

The other Senators have been made quite familiar with the history of Mr. Borah, one of them having received a telegram reading as follows: "Borah is the peerless political leader and orate who led Idaho Republicans to victory in 1902. The people elected a Legislature with a sepublican majority for the purpose of sending Mr. Borah to the Senate. He was defeated in that aspiration by the Mormon church, through whose agency he is now employed."

It is known here now that Mr. Borah was a silver Republican leader in 1896 and 1896, but that he went back to the Republicans in 1900. His Republican leaders objected to sending a silver Republican in 1896 and 1896, but that he went back to the Republican in 1896 was so brilliant that his selection for the Senate when they had a straight Republican majority, and so there was a wrangie in the Legislature which resulted in a deal whereby the Mormon balance of power was thrown to Mr. Heyburn and he was elected to the Senate in place of Mr. Borah.

It is also known in Washington that

FOUND DEAD IN BED.

Civil War Veteran Passes Away Saddenly in Second-street Lodging House—Was Well to de.

Unable to rouse one of his lodgers yesterday morning, the proprietor of a rooming-huse at No. 228 East, Second street climbed over the transom of the room and found the occupant dead in bed. The police and Coroner were notified, and investigation showed that the dead man was Peter Schnabel, a veteran of the Civil War, about 65 years of age, and that his death was apparently due to natural causes.

Schnabel recently arrived in Los Angeles from San Francisco, and little known of him, save such fragmentary facts as are discissed by "apers found among his effects. He had a pension certificate showing that he was a member of the Thirty-second Indiana Volunteer Infantry. Bank books show that he had money aggregating about \$800 in the German American Savings Banks of Los Angeles and San Francisco. There was about \$40 cash in his clothes.

The body was removed to Bresee Brothers' morgue; where an inquest will be held this morning.

Mr. Fairbanks has been a resident of Dawson since 1893. The Northern Commercial Company, whose affairs he has control of from Circle City, Alaska, to the head of the Yukon and its tributaries, is one of the biggest business concerns in the Far North. In it are merged the old Alaska Commercial Company, and the Alaska Exploration Company, and the Alaska Exploration Company, it is engaged in transportation, merchandising and general commerce and controls a large part of the trade of the Yukon gold deids.

This is Mr. Fairbanks's first visit to Los Angeles, and his first visit to the States in three years. He reports the gold output of the country tributary to Dawson, about the same last year as in 1902—about \$11,00,00. Dawson, he says, has become a very moral and orderly city. Gambling of all kinds is absolutely prohibited and saloons are closed at 12 o'clock Sturday nights and not allowed to reopen before 1 o'clock Monday morning. Violations of this regulation, he says, are absolutely unknown.

The sanitary conditions of Dawson asys Mr. Fairbanks, have been so vastly improved in the last few years that epidemics of typhoid fever, scurvy and like diseases are now practically unknown. One can live as comfortably now in Dawson, says this hale and hearty northerner, as in almost any modern city. The population of Dawson at present is about 1000, but there are probably four times as many people scattered throughout the region tributary.

TOUCHED BY COURTNEY.

Ready Check-writer Also Had a Penchant for Borrowing Money
Which He Never Returned.

Further evidence of the dishonesty of H. R. Couriney, the ready check-writer, now under arrest at Tucson. Aris., awaiting extradition to Los Angeles, came to light yeaterday. There are other victims of Courtney's smooth financiering than those who cashed his bogus checks.

It is stated that Will M. Dowd of Pasadens indoresd a note for 375 for him, and had to pay it. C. E. Parish of No. 455 Court street loaned him 55t to buy a Christman present for his wife, and is still whistling for repayment of the loan which was negotiated more than a year ago. A man named Betts was also touched for \$35, and it is said there are others who have had a similar experience.

Couriney and his wife arrived in Los Angeles from San Francisco more than a year ago. Mrs. Couriney appeared to be an estimable lady and is said rot to have become aware of her hubanf's dishonesty until some months after their residence here, when she told him that he would have to repay the money he borrowed from friends or she would leave him. Last July she returned to San Francisco, but Couriney remained here. He worked in various capacities, as clerk, solicitor and real estate agent, and is said to have made considerable money, but was always hard up. Then he took to borrowing and cheek-writing und at last was compelled to fice the city.

The police are looking up his record pending his return from Arisona to be tried here on felony charges.

the Paris edition of the New York Herald says:

"There is no doubt that the Russian reply intimates in a friendly way that Russia cannot accept Japan's interference. At a council concerning Manchurla, it was stated that Japan is placing immense difficulties in the way of a peaceful solution, rendering it impossible for Russia to recede rom her position in the Far East. Russia cannot allow Japan to acquire territory in Southern Korea, thus cutting communication between Vladivostok and Port Arthur.

"The Russian government has approached the Wilson line, asking what ships of the line could be chartered in the Black Sea."

The Pacific Electric Company, in recognition of the way in which the motormen and conductors worked to handle the crowds on New Year's Day will give them a complimentary dance in Elks's Hall very shortly. The date has not been set, but will likely be sometime before the middig of the month.

City authorities are considering needful ordinances for fire protection. Also those in existence will be better enforced. Many of the owners of three-story buildings are negfecting to have fire-escapes placed upon them. The police have the Union Saviges Bank block in consideration particularly. In the third story is Elks's Hall, where large crowds frequently assemble, and there is but one exit from the building to the street. There is no fire escape on the building.

R. H. Courtney, who has been captured in Arisons, will be brought gack to Pasadena and Los Angeles, in both of which towns he operated with forged checks.

SAN PEDRO LUMBER RECEIPTS DURING DECEMBER.

SAN PEDRO, Jan. 8.—Decembor proved to be the banner unouth of the banner year in the lumber, receipts of this port. According to the report of the local customhouse the mouth far exceeded all previous records. This report shows the arrival of 70 steamers, 35 schooners, 4 barkentines, 2 carks end 1 ship, a total of 116 vessels, bunher-lades, with cargoes from Northern Californis and Sound ports. The number of sallors carried on steamers was 135, and on sailing vessels 368. The net tonnage of these vessels was 46,449 tons. They brought 34,253,000 feet of lumber, 6,960,000 shingles, 533,000 shakes 2,630,000 laths, 4700 poets, 3000 railroad ties, 2461 poles, 733 piles, 21,200 barrels of oil and 386 tons of miscellaneaus freight and merchandise. Of passengers 2257 arrived, and 2270 departed. Figuring all wood stuffs at this port into feet of lumber received during December, shows the great total of 34,40,000 feet. The value of these receipts at the wholesale price would be over 525,000. This lumber would load 2022 cars and would make a train over twelve miles in length.

about \$80,000 had been paid on city taxes yesterday, leaving a balance of \$122,000 to be collected during the next two weeks.

"This amount will come in as rapidly as issual," said Collector Cambell yesterday. "It seems straige that so much money should be still out on taxes at this time of the year, but it should be remembered that several months ago the time of delinquency was extended about one month. I think taxes are coming in about as usual this year. Most property owners find it much more convenient to pay in January instead of at the Christmasseason, as hitherto. They have just had time enough to recover from the draft made upon their purses during the holiday season."

TO ABOLISH TAXES.

The New Century Club wants taxes abolished on the smaller colleges of the State, and on Tuesday evening appointed the following committee to agitate the matter in the press and elsewhere with a view to getting it before the Legislature sooner or later: President Guy Wadsworth of Occidential Colleges: President George Bovard of US C: Trustee E. CATALINA ISLAND.

FIERCE NORTHEASTER BLOWS.

AVALON, Jan. &—Not within the memory of the oldest inhabitant of the island has there been a fall season so free from storms of all kinds as this. There has been but one interruption to the succession of beautiful days and glorious nights up to last evening when, about 6:15 o'clock a northeaster broke with sudden fury upon us, and in a few moments had kicked up a violent surf. Appearances indicated that the storm would be a severe one, but it became no worse after the first half-bour, although a stiff breese still continues. Several small boats were caught in dangerous positions, but all were saved except one, which went on the rocks and was broken up.

At about 11:30, c'lock, at the heighth of the storm, the Warrior arrived. The steamer had been dispatched by Capt. Banning to convey George W. Thompson, temporarily manager of Hotel Metropole, to the bedside of his mother, who is lying seriously ill. It was only by the exercise of the best of seamanship that Capt. Driscoll came alongsite the wharf and lay there until Mr. Thompson could embark, for every wave was breaking over the vessel's stern.

Long Beach, Jan. 6.—Louis Gottschalk and wife of cottage No. 273 on the ocean front, had planned this evening to celebrate the sixty-third wedding anniversary of Mr. Gottschalk aparents at their seaside home, but on their arrival from the city at 5 o'clock in the afternoon found that a dissistrous fire had been there first, and that the occasion, while it had been made memorable to them, had not been celebrated by just the kind of bonfire they would have liked.

Shortly after 2 o'clock this afternoon, Mrs. Joseph H. Ryan, lately from Winnipeg, with her daughter and son, Burt, were engaged in cleaning clothes with gashine at No. 271, on the front. They were intending to go fishing directly after, and Mrs. Ryan desired a fire to get well warmed up before the long, cold seance on the wharf. A match was lit; the room was full of gasoline furnes, and nobody needs to be told the rest. In an instant the house was enveloped in flames. A little boy passing in front gave the alarm.

Bob Elser, a plumber who happened to be working near by, hearing that the waman was inside, forced his way list of the Bouse, entered the burning room, and brought out Mrs. Ryan, who had been overcome by the flumes and was lying on the Boor. She was but slightly injured; her rescuer was burned considerably about the face. Some of Mrs. Rryan's clothing had taked fire, and sae had torn it off before becoming unconsclous. With her children, she was at once hurried up to the Holoborow Metel. Riverside Opinion of Judge Noyes's Coup.

But Grand Jury Going Into "Graft" Scandal.

Many Witnesses Called, and Stenographer Fired.

RIVERSIDE, Jan. 6.—With the as-RIVERSIDE, Jan. 6.—With the assembling of the grand jury yesterday things began to move in and around the investigation of the alleged Courthouse grafting. Decisive action was indicated by the many supposedly inheterial winesses who were at once summoned. Officers were busy notifying the persons wanted, and it looked very much as though the body was getting to the business in downright earnest. Later in the day things didn't seem so clear owing to Judge J. S. Noyes's action in delivering to the grand jury another set of supplementary instructions. Had the things set forth in this lengthy document been something new and unheard of, they might have created a sensation, but in the light of the fact that the subject had been long ago thoroughly aired in the local press and elsewhere, the bringing of them into prominence at this particular juncture was the cause of unfavorable comment. There are many intimations that this move was more of a side issue than anything else. The statements made by the quart are pertinent and will come along with the rest of the sileged Courthouse grafting, but just now the grand jury must have its hands full delving into conditions which are thought to exist nearer at home than a broadside movement which might recessitate going 50 miles in order to carry on investigations.

GETTING WARM.

That the local investigation is getting warm for certain local individuals is evident, and there are those who assert that the new trial outlined by Judge Noyes has for its real purpose nothing more nor less than to throw the followers off the strong local scent and direct their sealous efforts in another direction, in the hope of letting public sentiment die down and eventually to cause the "grafting" inquiry to be dropped. Whether this be true or not, the turn things have taken within the past twenty-four hours clearly indicates that the entire affair, locally and otherwise, will be probed to the bottom.

"The Supervisors must evidently be

were decidedly uncomfortable. It must be coming down pretty close to them, or they wouldn't look so scared." This is but a sample of the comments heard in many directions. As is generally known, the Bupervisors are accused of having a finger in the Courthouse pie, which is alleged to have been passed out in silices of various uses, and now their every action is being carefully scrutinized. People are even going back and digging up their records.

NEW STENOGRAPHER NEW STENOGRAPHER.

The grand jury today took unexpected action in removing the stenographer who has been doing duty and apparently not giving satisfaction, the Superior Court reporter, has been working in this important capacity, but now a young woman, Miss Winifred Castleman, daughter of Maj. M. M. Castleman, holds the position. It was given out by members of the grand jury that this change was made in order to economise, as the young woman's services are not so expensive as Pelton's. This was ostensibly the reason, but a report has it that somewhere, there was a "leak" and it was ihought by some that possibly the stenographer had given out intimations of what was taking place within the secret chamber. It remains to be seen whether this will put a stop to the undesirable "lenkins."

LIOLD-UP MAN FAST SPRINTER.

WASHINGTON STREET CLERK HAS ENCOUNTER WITH HIM.

Road Agent Appears to be Amateurish Imitation, Running at G. H. Morton's Show of Resistance. Shot Fired, Nobody Hurt.

A timely exhibition of nerve on the part of a Washington-street grocer prevented a hold-up, and possibly persuaded a rather amateurish highwayman to think again before venturing off the straight and narrow path that does not always lead to fame.

G. H. Morton, a clerk in the College Grocery at the corner of Hope and Washington streets, near St. Vincent's Church, after closing up the store at 7 o'clock last night, accompanied by his wife, and with both arms filled with bundles, started to walk to his home at 410 West Twentleth street, a block away. Their route lay across the vacant lot recently decided upon for the new Polytechnic High School, and Mr. Morton, marching in front with his armload, noticed casually a man coming up from Twentieth street along the same path. The pair paid little attention to the fellow until he stopped squarely in front of them, pulled a revolver, and ordered Morton to throw up his hands. This he was unable to do without droppins the bundles. The would-be highwayman was somewhat flustered, and Morton, suddenly letting fall the bundles in his left hand created a diversion in his favor, allowing him to knock up the levelled revolver. The bogus footpad at once turned and ran. Morton took after him. Finally the fellow turned and fired wildly, once. Mrs. Morton sereamed, and Morton turned back, the fellow disappearing toward Figueroa street.

Morton says his assailant was a rather tail fellow, of perhaps five feet ten foches, wearing a felt hat, and

TOWNSHIP OFFICERS.

The Board of Supervisors promptly appointed officers for Ventura township today. For Justice of the Peace they named Incumbent Wesley Boling and for Comstable Incumbent Eugene Fordyce was the selection. The appointments were made to conform with the recent Supreme Court decision to the effect that each township of less than 6000 people was entitled to but one of each of such officials. Justice Boling waived any fees which might be due him for past services, while the board allowed the claims of former Justice L.F. Eastin for several hundred dollars. This was the only township acted upon and the only township from which petitions were presented. It is thought that throughout the county this mode of procedure will be generally followed—that the official receiving the highest number of votes at the last election will be retained in office and that those retired will receive a certain amount of money for work performed as a compromise.

Mr. Carne, who has purchased into the block since the agreement was made, and who is evidently not bound by it, does not feel like putting his building back and having its front hid by the livery stable front next door, and the liveryman is under no obligation to move back or cut his barn front off yet, and that is the way the thing is locked. It is creating a furore in that particular block.

Continuous service has been installed, in place of special hours on Sundays, evenings and holidays. A force of fifteen men have entirely rebuilt the town system, replacing the old iron wire with copper wire, changing the ten-party lines to two and four-party lines, installing two new switchboards, putting in new poles, painting them and piacing them wherever possible in the alleys. The toll lines between Oznard and Montalvo have been rebuilt and men are now at work stringing a line through the Sinti so that Oznard will be able to call Los Augeles directly without going round by Ventura. The lines from Oznard to Hueneme are also being overhauled.

HORRIBLE SUICIDE OF UNKNOWN JAP.

H ARA-KARI is the Jap's favorite method of suicide, but one of the Mikado's subjects in this city yesterday adopted a method still more horrible, if not more certain.

As the Southern Pacific north-hound constants

horrible, if not more certain.

As the Southern Pacific north-bound overland passenger train crossed First street yesterday afternoon, an unknown Japanese who had been sitting in the waiting room of the First-street depot, rushed out of the door to the railroad tracks and deliberately threw himself in front of the train, which was a double-header.

Two engines and several heavy coaches passed over him before the train was brought to a stop. His body and limbs, from the waist down, were ground to a pulp, with the exception of one foot. Yet it was thirty-eight minutes by the watch before life was extinct.

It was a grewsome sight that met the eyes of the crowd that soon gathered around the mangied, yet living, remains. At first no one was bold enough to remove the ghastly mass of fissh and blood from beneath the train could not proceed. Ex-Coroner Cates, however, happened on the scene after a delay of some minutes, and pulled the body from the rails so the train could go on its way.

There were several eye-witnesses of the tragedy who stated that the unfortunate Jap and another of his race came into the waiting room of the First-street station about a quarter of an hour before the north-bound train was due. They set down as though waiting for a train. When the overland steamed across First street, one of the Japs ran out as though in a hurry to board the train, but instead of waiting for it to stop, he placed

his arms across his face and pitched himself headlong across the rails in front of the leading locomotive.

The overland runn slowly at this point, but it was impossible for the engineers to stop the train in time to avoid running over the prostrate Jap and grinding him beneath the wheels. Two witnesses were found by the Coroner who positively averred that they saw the Jap throw himself in front of the train with evident suicidal intent. What became of the other Jap is not known.

The Coroner had the remains removed to Pierce Bros. morgue; where an inquest will be held this morning. Many Japanese residents called at the morgue yesterday afternoon to view the body of their countryman, but none could identify the dead man.

SAN PRANCISCO, Jan. 6.—R. F.
Johnson, mayor of Monterey, and his
wife, were purged of contempt by the
Supreme Court today in the matter of
the disappearance of Leo J. Christal
and the temporary writ of habeas corpus secured by Dr. J. F. Christal, the
boy's father, was dismissed.

Leo Christal left his father's home
in Santa Crus last February and went
to visit his uncle, Mayor Johnson, at
Monterey. Subsequently, he left Monterey and went to Honolulu, where he
has since been living with his sister.
It was alleged that they boy left home
of his own accord because of dislike
for his father.

Young Christal was for six weeks
employed as bellboy in the Honolulu
hotel, but lost his position. He and his
sister are heirs to 1306,006, left by
their grandfather. There has been
considerable litigation over the estate
so that the estimated value of their
interest is now valued at 140,200, a
sensation was caused a few months
ago when the boy was supposed to have
been spirited away from his father and
shipped on a schooner to Honolulu, as
a member of the Seventh Cavalry, United States colored troops.

The property is located in Monterey
county and has an acreage amounting
to 15,025. The trustees of the estate
are Robert F. Johnson and A. Trescony, of Monterey county.

summarized as follows:

"Gen. Ortis is next in rank to Gen. Reyes, and at the time was in command of all Colombian forces operating in the Darien region. He came over from Cartagena December 2, on the gunboat Cartagena. His forces were distributed from Revesa Point to Cape Tiburon, and numbered at that time about two thousand men, with an equal number of laborers. These numbers, however, were being added to by men brought from points on the east side of the Guif of Darien by means of small consting vessels and Colombian gunboats.

"Ortis's headquarters were at Titumatt, a small village situated about midway between Tumale and Tarena Islands. At this camp he had a force of four or five hundred men. A line of sentries patrolled the beach from Tarena Point north almost to Tumale Island, and there were three field pieces located at advantageous points."

States government to the protest filed
by Gen. Reyes, the Colombian Minister, against the action of the United
States regarding the affairs on the isthmus. The communication is a long
one, and sets forth in detail the position of the administration on the various points raised and grievances recited by Gen. Reyes in his note submitted to the State Department in the
latter part of December.

The reply has been given very carnest

mext Monday. The subpoena was issued last week, and should have reached Sait Lake about Monday.

Mr. Beach said he also understood that a subpoena had been issued on behalf of the government for Heath's presence in connection with the trial of former Representative Driggs, which was begun in Brooklyn today.

suppoen former First Assistant Post-master-General Perry S. Hea but have not yet succeeded in serving the papers. It is stated that the papers have been placed in the hands of the United States Marshal. Heath's presence, it is said, is re-quired in the East in connection with some phase of the postoffice investiga-tion.

He then returned to his hotel and dil not attend the memorial service of Rev. Dr. H. N. Beard, where he was expected to speak.

The memorial services of Dr. Beard, who came here to represent the church in the trial, and who died suddenly on Monday, took place in the Union Methodist Episcopal Church. Bishop Fitzgerald and Dr. Bane of Ban Francisco delivered addresses. After the service the body was sent to Ean Francisco, accompanied by Rev. Dr. Bane. HOLD UP TROLLEY CAR.

SALT LAKE (Utah) Jan. 6 .- Joh Gleason, motorman on a Consolidated Street Railway car, was shot, and Thomas Brydon, the conductor on the same car, was probably fatally wounded, shortly after midnight by a masked highwayman who was at-tempting to rob them of their money and valuables. The assailant escaped immediately after the shooting and

The shooting took place at a terminus of the line, and in a sparsely-settled district. Gleason and Brydon settled district. Gleason and Brydon were preparing to take the car to the city on its last run when the masked man entered, commanding them to hand over their money. Instead of

COUNTERFEITER TELLS STORY. BOSTON, Jan. 4.—Moses Novak, one of the band of alleged counterfeiters of the band of alleged counterfeilers recently arrested in Revere and New York City, has told a remarkable story to Secret Service Agent Murphy. He says that several years ago John Davis, the alleged leader of the band, was supposed to be operating in England, and among other things, was turning out counterfeit bills on the Russian government. Novak was sent iffetermer, from Tulare; John Burke, Russian government. Novak was sent iffetermer, from Tulare; John Burke, it years, Los Angeles.

his plans.

Davis was arrested a short time afterward, in one of the biggest counterfelting raids that was ever made in that country. He offered to turn Queen's evidence and he escaped punishment. Davis came to this country and Novak followed, as he claims, in the interests of the Russian government, to see that no Russian counterfeits were made over here.

EXTEND BEYOND CHICAGO. EXTEND BEYOND CHICAGO.

SAN FRANCISCO, Jan. 4—It was announced at the Southern Pacific Company's office today that the western roads which have agreed upon the advance of west-bound and east-bound freight rates, effective January 18, are now arranging for an expansion of these rates to points beyond Chicago. Accompanying this announcement is another to the effect that the advanced rate in the new schedule is to be withdrawn on certain commodities, a list of which is now being prepared.

ESPEE'S SIERRA PROJECT. SAN PRANCISCO, Jan. 6.—It was stated today that the Southern Pacific has under consideration a new project to facilitate transportation across the to facilitate transportation across the Sierras, the tunnel project having been indefinitely deferred. The proposed plan is the laying of a third rail between Sacramento and Truckee, and the establishment of an electric plant with power obtained from the Truckee River. Great motor cars will be operated to assist trains in crossing the heavy grade. It is said that plans have been prepared and submitted to President Harriman.

the business men of San Francisco."

C. H. Noll, of No. 1925 Michigan avenue, said: "The general policy of condemning our officers upon whom we depend for the enforcement of the laws should be rebuked. If we discredit these officers we lay bare the law itself to disrespect and neglect. The officers may have acted unwisely in this Choisser affair in allowing themselves to become entangled in such a position where gun plays became necessary; but after they were in such a position it was simply a case of either the officers or the men who resisted arrest being shot. I am glad the officers were not killed. If there was unwise judgment by the officers in attempting to make the arrest as they did, that doubtiess will come out at the investigation; but this continual attempt to hold up our officers of the law to ridicule and censure should be condemned by every lover of law and order."

ask publicly for alms?"

J. M. Newman of the East Ninth Street Transfer Company has some ideas of the Choisser case that strip it of the sickly sentimentality which certain people have endeavored to spread over it. Said Mr. Newman: "Probably sverybody who is familiar with the details of the Choisser case regrets that there has been loss of life, but that cannot blind us to the bare facts in the case. Supposing the elder Choisser did come here to marry an estimable woman, and supposing people where he has lived may have thought well of him, not knowing of his misdeeds, that oannot cover the fact that this man and his son were fugitives from justice, as is shown by a letter found on the body of young Choisser. Neither does all this hide the fact that hese men resisted arrest by regular officers acting under orders from the Sheriff of the county from which the Choissers fied; nor is the fact to be overlooked that after from which the Choissers fled; nor is the fact to be overlooked that after the officers demanded their surrender, there was a command from the father to the son to fire upon the officers, while he himself struggled to get his revolver. It was simply a case of the officers or the fugitives being shot. Do we want to place ourselves on record as condoning the attempts of fugi-tives from justice to kill officers of the law who were attempting to carry out law who were attempting to carry out their duties? This attempt of some their duties? This attempt of some yellow newspapers to make of the Choissers heroes who suffered martyrdom is setting a dangerous pace. It is in line, however, with the general endeavor of certain classes in Loss Angeles to belittle and slur the officers in their attempts at enforcing the laws. If this campaign is continued it will bring forth bitter results."

DeMoss Bowers, law brief and transcript printer in the Jones block, expresses disgust at the attempt of certain papers to create in Los Angeles conditions similar to those which prevail in San Francisco. Said he: "This continual gush and twaddle attacking the officers of the law is simply bringing these yellow journals into disrepute. They would foist upon this community the same conditions which exist today in San Francisco; and should this ever come it would be a sorry day for Los Angeles. However, they will find that this city's business men are not of the stamp to swallow their stuff, and they have more independence than the business men of San Francisco."

It was reported on the streets yesterday afternoon that Mr. Muir had passed away about noon, but this proved incorrect, and walle he is believed to be dying, and the end was expected at any moment through the night, reports from the bedside at an early hour this morning said he passed a fairly comfortable night. At 7 o'clock last evening he was reported somewhat stronger, and appeared to be rellying slightly, and at midnight his physician, Dr. E. A. Bryant, reported his condition as practically unchanged. Asked

from the Western Union to the Central Pacific as operator at the Rock-lin station, and began his association with the company in which he subsequently atained a high position.

Mr. Muir was just the kind of man the railroad needed. Active of mind and body, of unimpeachable integrity and loyalty, possessing sound judgment and of quick, but thoroughly-considered action, he entered into the strenuous railroad life well equipped for its duties.

Mr. Muir's advancement came through constant efficiency in an executive capacity, rather than through any spasmodic brilliancy. He could always be depended upon to do well the work in hand, whatever it might be. From telegraph operator at Rocklin he became tranmaster of the Sacramento division with headquarters at Rocklin, and was later sent to iteramento as assistant agent. In 1883 he was transferred to Tucson, Aris., as division superintendent, and three years later, in 1886, he was sent to Los Angeles with the nominal position of assistant superintendent, but as a matter of fact, he was superintendent, doing all the work and assuming practically full charge. Later he became division superintendent here, which position he held until he severed his connection with the Southern Pacific Company in 1992.

AN ACTIVE CAREER. AN ACTIVE CAREER.

John A. Muir is one of the foremest men of the local railroad world, standing second only to H. E. Huntington. Starting in the little town of Rocklin, now famous by reason of the many great railroad men who began their careers there, Mr. Muir advanced step by step until he became one of the most valuable men in the Southern Pacific Company, and was division superintendent for that company at Los Angeles when Mr. Huntington took him away from the Southern Pacific and made him general manager of the Los Angeles Railway.

Mr. Muir was eminently adapted to the conditions which existed at the time he started his career as a telegraph operator at Rocklin. Abandoning telegraphy when, in 1868, he arrived at San Francisco from his native sown, he went into the drug business. In 1870 he went to Rocklin and opened a drug store, but when the Western Union opened its office there he forsook the new love and returned to the old, becoming telegraph operator for the Western Union. He was then a boy of between 19 and 29 years. Within a short time he went

Mr. Muir's great executive power, his ability to quickly see and effectively supply the railway's needs, and his constant personal interest in the advancement of the city, contributed what was much needed, and have done much toward placing Los Angeles in its present advanced position. Los Angeles was fortunate in that Mr. Huntington selected Mr. Muir to carry out the Los Angeles purt of his vast railway plans.

Fusthermore, Mr. Muir has had an active part in the vast industrial progress made by this city and the immediate vicinity—a progress that considering its extent and the short time required for its accomplishment, is not equaled in any other part of the world. This immense industrial development is due in grest measure to the efforts of

ANDITS ON TRIAL.

We do not consider it good business to carry goods over from one season another. This season's goods for this season's buyers. We happen to have an overplus in some lines of suits and overcosts and that means a re-adjustment of prices in order to force things to come out even.

See the extra values we are showing in \$15.00 Suits.

BOSTON DRY GOODS STORE.

239 South Broadway, Opposite City Hall, Los Angeles.

Each day brings important additions to our January Clearance sale. For today the special in our Corset Department will be of greatest importance.

Great Clearance Sale

CORSETS.

We will offer the balance of a surplus stock of up-to-date Corsets, representing five different models, in-cluding fancy figured sateen girdles, for this Special There is not a pair in the lot that would sell regu-

larly at less than 750, and many could not be bought under \$1.50. Some of them are made of fine coutil in white and drab and are trimmed with satin ribbon. We will place them on sale for today only.

Today 45c a Pair. Many women will take advantage of the special clear-ance prices which we offer.

Glove Clearance Friday.

We wish to clean up our entire glove stock and will place on sale every odd line of kid gloves in the store. The assortment will include black suedes in all sizes from 5½ to 7½ in both three-clasp and 8-inch Mousqu-taire; also two-clasp real kid piques in colors, sizes 6, 61, 61, 61, 7, 71 and 71.

Every pair of these gloves is worth not less than \$1.25, and many would sell regularly at \$1.75 the pair. Choose Friday 75c the Pair.

Delayed Goods At Half : : :

Today we give you an opportunity to buy Rich china boullions, After Dinner Coffee Cups. Tea Cups and Saucers by the dozen, at just about one half the regular prices, because they arrived a little too late for Christmas. Notice our windows.

Stout Shoes for Women

Feet need protection from these frosty mornings. A good stout pair of Staub's shoes will protect them. At \$8.50, \$4.00, \$5.00 and \$6.00 we are showing some swell styles with good heavy soles and in the popular leathers. Lace or button, all with that individual air of style that marks a Staub shoe.

A FROCK Coat is like a see-naw.

It sees both the ups and downs of life—is proper at christening or funeral—worn at marriages and divorces. It can fashionably see the sun-up and the sun-down.

No coat covers so many uses as the Frock Coat. No Frock Coat covers so many tailor-ing and fabric virtures as a Brauer Krohn Frock Coat-335 to 365.
